Banker:

Today's event is going to be super fun.

And I hope that they learn that having a positive relationship with a financial institution is possible.

Student:

It was a lot of fun. I really liked when we were playing the game.

It was just fun because we got to be competitive like in soccer. And then also, I did learn a lot that I had no clue about.

Student 2:

I like the fact that it was interactive, so it's not just and we get to have fun with it too.

And like she said, I learned a lot of things that I did not know [coming in] today.
